CASE STUDY CATARACT

Name: Khatau Narshi Dama	Age: 80yrs
Sex: Male	Address: Kumta, Karwar- Karnataka
Surgeon's Name: Dr.Dharmendra Singh	Surgery done: Re SICS IOL
Anaesthesia Type LA	Date: 02th Nov 2017

History:

- KhatauNarshiDama80year old male is a case of mature cataract. Khatauwashaving difficulty in his vision since 2 years, he was facing difficulty in performing his daily activities. The problem had aggravated since 6 months. He thought that age is catching up and why spend on the operation. His financial condition was not stable that he could afford a surgery.

How did he come to know about LLE camp?

- From thepublicity

How did he feel after operation?

- If it hadn't been for the Lifeline Express I would never be able to see properly, I thank the doctors and Lifeline Express for giving back my vision.

Note:

- His vision in left eye was restored after surgery and he could see properly.
- He was satisfied with the services he got at LLE

CASE STUDY PAEDIATRIC ORTHOPAEDIC

Name: Rajesh ShridharDevadiga	Age: 15yrs
Sex: Male	Address: Bhatkal, Karwar
Surgeon's Name: Dr. Rajesh Panchal	Surgery done: Cerebral Palsy
Anaesthetist: Dr. Mansi Bapat Dr. Hemangini Barot (Caudal & GA)	Date: 16 th Nov 2017

History & Clinical Details :

Rajesh ShridharDevadiga 15yrs old male born a normal delivery at home, *"His development has been slow as compared to other children"* says his mother. The parents noticed the problem at the age of 4 when he could not stand without support and also delay in speech and showed him to the doctor in the local hospital but it was in vain. He has been living with the Cerebral palsy since birth, he has tightness of bilateral adductors and muscles which makes walking without support difficult. During the publicity they got to know about the Lifeline Express its services and specialist doctors coming. Rajesh was operated for bilateral hamstring and adductor release under general anaesthesia, the measurements for his splints was taken which he will wear after plaster removal to maintain the surgical correction.

Feedback: We had missed the opportunity in Bhatkal last year and the news of the Lifeline Express coming to Kumta has given us a new chance I would like to thank God for sending Lifeline Express for my son. We thank the doctors for giving us hope.

Case Study Middle Ear

Before Surgery

After Surgery

Name: Manjula Mohan Madival	Age: 31
Sex: Female	Address: Ankola, Karwar
Surgeon's Name: Dr.Srinivas K	Surgery done: LE TympanoPlasty with Ossiculoplasty
Anaesthesia: (LA)	Date: 13 th Nov 2017

History:

- **Manjula Mohan Madival** 31 year old female living with her husband & two children was having difficulty in left ear since 4 years. She started having difficulty in her left ear with diminished hearing which aggravated over time. She got her check up done in Kumtataluk hospital but due to the lack of ENT surgeons she could not get the problem addressed. She was referred to Manipal Hospital in Udupi but due to her financial condition she could not visit a big hospital.

How did she come to know about LLE camp?

- She got to know about the Lifeline Express and its services through pamphlets.

How did she feel after operation?

- She was happy that she will be suffering no more from ear discharge and was ensured that soon she will be able to hear from the left ear as well.
- She was satisfied and thankful for the service received at LLE.

Case Study Cancer (Oral)

Name: DattaAnantaDeshbhandari	Age: 65
Sex: Male	Address: MallapurKumta
Surgeon's Name: Dr. Shekhar Salkar	Surgery done: Wide excision with primary closure
Anaesthesia: (GA)	Date: 12 th Nov 2017

History:

DattaAnantaDeshbhandari 65year old resident of MallapyVillage, Kumta, lives with his wife and has no children. Datta's wife works as a cleaner in 2 households and has a monthly income of Rs 1200. Datta has left his job as a daily labourer and his wife supports the family.

Dutta had proliferative growth on the corner of the lower left lip since 6months.

He did not show to any doctor and decided to wait until the growth shed off by itself.

Screening and Surgery:

He learnt about the Lifeline Express project in Kumta from his neighbours and decided to visit the train for cancer screening. The oncologists on train decided to take biopsy for the patient and the first biopsy report came negative for cancer.

But looking at strong clinical suspicion the oncologist and the oncosurgeon decided on operating the patient as a preventive measure . He and his wife were informed that though the first report is negative for cancer there are high chances of the lesion to be cancerous and thus surgery is the only solution. After consent, Datta was successfully operated on the Lifeline Express free of charge.

The final histopathology report confirmed the operated sample as moderately differentiated squamous cell carcinoma(cancer).

He was incredibly grateful to the whole team on the Lifeline Express for giving him the opportunity to access both diagnostic and surgical services that he otherwise would not be able to afford. He was indebted to the team for taking the right decision for him.

The successful surgery and the post-operative care at the taluka hospital have ensured his speedy recovery. He has been visiting the surgeon in Goa for regular follow ups
